Video Conferencing Services

Meet face-to-face with participants from across the globe with OneSmart Conference's video conferencing services. We offer the latest in video technology and highest quality customer service to make your video meetings as easy and as effective as possible. With our state-of-the-art facilities, OneSmart Conference can meet your video conferencing requirements, anytime, anywhere, on any platform and across platforms.

Interact With Numerous Locations

Experienced video operators can transparently expand the capabilities of your video conference across a variety of networks and protocols, allowing you to conference with an unlimited number of locations simultaneously. With our continuous presence, transcoding and mixed data rate features, you get the most from your video conferencing investment.

OneSmart Conference customer support is available 24 hours a day, 7 days a week.

Features and Benefits

Recording: Record your conference so that it can be easily replayed later.

Streaming: Capture your video conference live and stream it via the Internet to an audience, or archive it for later viewing.

Data Conferencing: Add a data presentation to your video conference. Share documents, present PowerPoint slides and lead participants on web tours over the Internet.

Audio Add-ons: In the event a participant can not join over video, he or she can simply participate via an audio port.

Hollywood Squares: Multiple presenter and viewer screens.

On-Site Evaluations: Our expert Design Services Team will visit your location and evaluate your video conference room for lighting and atmosphere.

Please contact us for further information regarding your video conference via email to sales@onesmartconference.com, or call 800.826.3099.
